EXPERIENCE

Fullstack Developer

Desight Studio

April 2023 - May 2024, Israel

- Led a team of 5 developers in building a new marketing platform, resulting in a 15% increase in conversion rates.
- Mentored junior developers, fostered a collaborative environment, and implemented agile methodologies to improve team efficiency.
- Streamlined communication channels and implemented project management tools, leading to a 20% reduction in project completion timelines.

Frontend Software Engineer

Noviopus

September 2022 - April 2023, Israel

- Enhanced user experience for a high-traffic application by translating the entire user interface into several languages using i18next and React. This project ensured a seamless experience for a global audience while adhering to strict deadlines.
- Developed responsive features for both mobile and desktop platforms using React, CSS, and Material-UI. Collaborated closely with designers to translate mockups into functional UIs, resulting in a 20% decrease in user bounce rates.
- Improved the subscription experience on the platform by streamlining the sign-up process with React and Redux. Implemented clear and concise information architecture, leading to a 15% increase in subscription conversions.

Frontend Software Engineer

PskovHack

March 2021 - June 2022, Russia

- Developed responsive features for mobile and desktop platforms, ensuring a flawless user experience across devices. Achieved a consistent website speed score of 90+ using performance optimization techniques and adhering to best practices for layout design.
- Increased development efficiency by 12% through code reusability strategies and by implementing a well-documented component library in React. Demonstrated strong analytical skills to identify performance bottlenecks and implement effective solutions.
- Integrated and communicated effectively with REST APIs, collaborating seamlessly with the back-end team to ensure smooth data flow and functionality within various projects.

EDUCATION

Business Informatics

Higher School of Economics (HSE) • Moscow, Russia • 2022

CERTIFICATIONS

Computer Science Certificate

Harvard University • 2021

- Acquired fundamental computer science knowledge through Harvard University's CS50.
- Proficient in programming languages like C, Python, and SQL, along with web development using HTML, CSS, and JavaScript.
- Developed problem-solving and analytical skills through practical programming assignments and projects.

Front-End Developer Certificate

The Odin Project • 2021

- Started with zero coding background.
- Created tons of projects all by myself during curricular.
- Grasped knowledge of HTML, CSS, JS, and React fundamentals + basics of Git, Jest, Webpack.

SKILLS

Programming languages: SQL, JavaScript (ES6+), TypeScript.

Development: HTML, CSS, SCSS/SASS, Tailwind, MUI, React, Redux, MobX, React Native, Next, MongoDB, Express, Node, Responsive Design, Cross-browser Compatibility, REST, HTTP, Expo, NPM, Webpack, React Query (TanStack).

Tools: Jest, Git, Docker, Vite, AWS.

Languages: English – advanced/C1, Russian – native
